

## ABSTRACT OF THE DISCLOSURE

Music number # $\gamma$  and one or more still images (e.g.,  
IMG\_01.IOB and IMG\_04.IOB) related to music number # $\gamma$   
are recorded in an audio card. In addition,  
5 information (e.g., IPI#5) for setting the still image  
(e.g., IMG\_01.IOB) representing the contents of music  
number # $\gamma$  is also recorded in the audio card. In this  
way, the representative image corresponding to the  
recorded audio information (music number) can be set.
